. . . DON'T GAMBLE . . .

Trade papers in the industry have warned!! "Certain machines may be advertised as low as $75.00 while other jobbers will offer the same machine at $100.00 to $150.00 or more. Some customers are baffled by this wide range of prices for the same game."

Condition of equipment must be taken into consideration.

With very few exceptions, the advertiser does not state the condition of the advertised machine. The buyer must gamble in buying "Price"—a game at a cheap price not knowing the condition of the game.

This means that the machine may not even work at all. Important parts may be missing or worn out—and it may be impossible to replace them since the manufacturer has since discontinued this item, and has no more parts left, or the manufacturer has gone out of business.

Mike Munves sells only equipment that is carefully reconditioned and refinished to look and perform like new. You do not gamble when you order from MIKE MUNVES.

BOWLING GAMES

"OLDTIME PENNY ARCADE TOPS IN DISNEYLAND$$"

ANAHEIM, Calif. — On Disneyland's Main Street where the old is artfully blended with the new, stands one of the $17,000,000 park's top money-making attractions the Penny Arcade. It boasts 100 coin-operated machines that date back thru the years of Arcade history.

The above news item from trade papers tells the success story of what happened to the more than 100 machines purchased by Disneyland from Mike Munves Corporation. While total revenue is a secret, a park representative has described the arcade income as "fabulous".

Greatest Money Makers Ever

GAMES BY ALL TOP MANUFACTURERS ARE REPRESENTED IN OUR LINE OF MACHINES.

Supplying basic every-day service. Rendering a high return on investment.

Since 1912 we have been constantly and exclusively concerned with the needs of the Amusement Arcade. Ever endeavoring to discover and offer the Arcade Owner the latest and best revenue machines, we have seen and handled all the best, and some of the next best machines for this purpose. We accordingly know what machines will "make a buck" and what are duds.

We are always at your service for our expert opinion on the right machines. All new releases are test-proven in reliable location operations to reveal their potential revenue value. We know the real value of a machine within a few weeks of its first run.

In planning a new arcade, or figuring on new additions or replacements, CHECK FIRST WITH US.

Cost Price is not alone indicative of earning power. Early production machines of quality, precision and interest are still going strong. Mechanically reconditioned and refinished the Munves Way, such machines stand shoulder to shoulder with the best of the newest in favor and earning power.

ALL OUR USED EQUIPMENT ARE REBUILT BY TRAINED MECHANICS TO FACTORY SPECIFICATIONS, READY FOR LOCATION.

Let us quote trade-in value of your obsolete, idle machines against the purchase of the best revenue offerings, both new and old.

Rid out the duds! Cut off the dead-wood! Use that costly rental space for live-action, proven-profit-play-getting games.

REVOLUTIONARY GAMES

The past few years have seen the coin machine market enriched by quite a few outstanding money-makers. These were confined mainly to guns and baseballs.

In this catalog you will find many games—new and earlier models rebuilt to look new—that are not now in your arcade. Why not make your arcade look diferent? Study this catalog and select some games you do not now have. Remember, something fresh and different will keep your customers interested, and when the customer walks into your arcade he will not be able to say "Let's go somewhere else, I played those machines last year!"—but instead, he and his friends will stay in your place and fill the coin boxes of your novel, different games.

Do you want to build a machine? We have: Relays, Step-Up Units, Coils, Contacts, Wire, Power Packs, Rectifiers, etc.

WHEN IS A BARGAIN NOT A BARGAIN

A new machine at a greatly reduced price is a bargain regardless of where it is bought.

But—a used machine is a bargain only if it looks new and performs the same way. Machines reconditioned the Mike Munves way are just that—and are, therefore a real bargain if bought at the same prices as quoted elsewhere.

THE REPRODUCTION OF THIS CATALOG IN FULL OR IN PART IS STRICTLY PROHIBITED.
